Edited Books and Journals\textsuperscript{1,2}

Journal Papers

\textsuperscript{1} All the publications can be downloaded from my homepage: \url{http://www.cse.chalmers.se/~gersch/}.

\textsuperscript{2} Till 2013 authors are listed alphabetically in almost all my publications, following the French tradition in formal methods, not reflecting the contribution of each author. Due to different publication policies by some of my co-authors the exception to the above are the following 3 papers: the 2013 IEEE TSE journal paper by G. Díaz et al., and the FLACOS’11 and IEEE SCC’10 papers by E. Martínez et al. From 2014, due to a change of publication policies, papers are not necessary in alphabetic order. A co-author contribution statement may be provided upon request.

**Refereed Contributions in Conference and Workshops Proceedings (peer-reviewed)**

19. Gordon Pace, Cristian Prisacariu, and Gerardo Schneider. Model checking contracts –a case study. In 5th International Symposium on Automated Technology for

32. Olaf Owe and Gerardo Schneider. Wrap your objects safely. In 6th International Workshop on Formal Engineering approaches to Software Components and Archi-

45. Robert Nagy, Gerardo Schneider, and Aram Timofeitchik. Automatic testing of real-time graphics systems. In *19th International Conference on Tools and Algo-

Tools
I have participated in the implementation of the following tools:

- **SPeeDI**: Together with Gordon Pace, I have implemented a verification tool for Polygonal Differential Inclusions (SPDI).
- **SPeeDI⁺**: Together with Gordon Pace, I have extended the tool SPeeDI for computing phase portrait objects of SPDIs. [http://www.cs.um.edu.mt/speedi/](http://www.cs.um.edu.mt/speedi/)

Besides, I have contributed to the conceptual definition and underlying theoretical results for the following tools:

- **AnaCon**: A framework for analysis normative texts written in controlled natural language. [http://www.cse.chalmers.se/~gersch/anacon/](http://www.cse.chalmers.se/~gersch/anacon/)
