

Q&A - Session

Jorge Carrillo, PhD.

How to communicate results...

You arrived to a crime scene and one of your co-workers says to you:

***“This is the only thing we could recover –
We are trying to identify other people
that are involved with this criminal
organization”***

The evidence provided is:

Postcard next to the computer

Photo of a Tattoo from one of the criminals, currently in a coma.

And two files 😊

Following a forensic process

- What will be your answer?
- Why is your answer correct?.
- What was wrong/right with your co-worker request?
