Parallel and Distributed Real-Time Systems

Facing the written exam ...

Monday 14:00 – 18:00, June 2, 2014

Note: re-exams will be arranged on a demand basis only

Written exam

Preparation guidelines:

– Read recommended technical texts (varying levels of detail …)

– Understand homework solutions (should be no problem ...)

– Consult previous exams (for inspiration …)

Books, notes or calculators are NOT allowed:

– The majority of the written exam questions are about key concepts and terminology

– Numerical calculations (if any) will be fairly simple

– Language dictionaries (printed) are allowed

– Electronic language translators are not allowed

Written exam

Recommended technical texts: (in order of importance)

1. Examiner's lecture notes

   All of it, with <u>full</u> in-depth knowledge

2. Guest lecture notes (RT comm., WCET analysis)

   Overview, less in-depth knowledge

3. Recommended research articles (as given in lecture notes)

   Overview only, least in-depth knowledge

End of today's lectures

… and of EDA421 ...

… thanks for listening!
