

# Errata in my Diploma Thesis

## A Semantical Analysis of Structural Recursion

Andreas Abel

September 25, 2001

p. 17 Operational semantics

There is an error in the rule (opappvr). The correct rule is

$$\text{(opappvr)} \quad \frac{\langle t; e, g = \langle \text{rec } g.t; e \rangle \rangle \Downarrow f \quad f@u \Downarrow v}{\langle \text{rec } g.t; e \rangle @u \Downarrow v}$$
